

Anna Ellegaard

I'm a designer with a technical backbone, educated in Coded Design at DMJX and with hands-on experience from agencies and product companies. **I work at the intersection of visual communication and frontend development**, and I do my best work where aesthetics and functional logic have to coexist. I take ownership, collaborate across disciplines, and learn fast in environments that move quickly.

Experience

Mar. '26 - Now

Marketing & Digital Designer - Kombination A/S

- Builds and maintains WordPress/Elementor sites with direct client contact and project lead responsibility
- Built custom WordPress solutions including Elementor layouts, PHP snippets, and theme customisation
- Implements third-party integrations including ActiveCampaign, custom widgets, and dynamic layout systems
- Produces visual assets, graphics, and content for digital channels and campaigns

Oct. '25 - Mar. '26

Creative Technologist Intern - Stupid Studio

- Developed interactive digital experiences at the intersection of technology, design, and play
- Worked directly with clients including the LEGO Group and Federer Foundation
- Developed concepts and games for Lego World Play Day 26
- Built an interactive face-tracking Miro-integrated app for online workshops
- Contributed to concept development, prototyping, and translating visual communication into digital and physical formats

Mar. '25 - Nov. '25

Marketing Assistant - SKAARHOJ

- Supported an international marketing team with website updates in Wix, campaign execution, video editing, and graphic production
- Produced content for digital channels and social media for a global AV-technology brand

Jun. '24 - Mar. '25

Marketing Assistant - TSG nordic

- Maintained and updated company website: content accuracy, tracking setup, and technical implementation, including SEO optimisation
- Managed tags, optimized user experience, and contributed to digital marketing initiatives

Oct. '21 - Jun. '22

Graphic Designer - Park Styling

- Designed campaign materials, packaging, and a full collections lookbook
- Produced print assets and contributed to website updates

Education

2023 - Jun 2026

PBA in Visual Communication, Coded Design - DMJX

- Rebuilt DBA's interface from scratch; design and frontend implementation
- Designed and built a health app for young people including an interactive game component
- Conducted design audits: analysis, visual redesign, and coded implementation
- Built own portfolio site in Vue.js; worked across React, Three.js, and p5.js

2020 - 2022

AP Graduate in Multimedia Design - IBA Kolding

- Grounding in UX/UI design, graphic communication, and digital marketing
- Hands-on work with Adobe Creative Suite and industry-standard workflows
- Introduction to frontend development and web production
